

# Environmental Policy Statement

**Baltex Ltd, operating from its sites in Derbyshire, Nottinghamshire and Leicestershire, designs, manufacture and supplies a wide range of high performance textiles for a variety of technical markets. Baltex respects the need for maintaining a balance between industry, society and a sustainable environment. Baltex will endeavour to ensure continuous improvements are made to our environmental performance by setting and achieving our objectives.**

**This environmental policy applies to all our operations, including management, manufacturing, office administration, procurement and despatch. All Baltex employees are responsible for their areas and to ensure that the aims and objectives of the policy are achieved and maintained. We will ensure the resources are available to enable us to achieve our objectives and targets, with reference to the continual improvement of the EMS according to the compliance obligations, by following the principles and requirements of ISO 14001:2015.**

**We aim to:**

- **Document and maintain an Environmental Management System that conforms to the international standard, ISO14001:2015.**
- **Ensure a commitment to complying with all UK applicable environmental legislation, other requirements and employing appropriate best practices.**
- **Reduce the generation of general and special waste going to the general waste route, i.e. landfill, from our three sites.**
- **Increase our re-use and recycle routes for waste from all three sites, minimising waste from site activities, through improvements in manufacturing processes, conservation of energy and resources, pollution prevention and control, provision for emergencies, and preventative maintenance.**
- **Prevent and reduce environmental pollution through continual education and training throughout the company.**

- Continually improve our environmental performance by setting and reviewing to meet appropriate objectives and targets.
- A copy of the Policy is available to the public upon request.
